Experience

Actuarial Analyst, Louisiana Department of Insurance, Baton Rouge, LA *06/06-Current*

Work with the Office of Financial Solvency to help determine whether domestic life insurers are conducting business according to actuarial principals and in accordance with state law. Duties include:

- Yearly review of Statement of Actuarial Opinion and Annual Statement for approximately 50 domestic life insurers, focusing on reasonable reserve levels, business practices, and operational trends.
- Periodic financial examination of domestic life insurers, including review of all actuarial liabilities and independent calculation of statutory reserves.
- Quarterly valuation of companies in receivership, including calculation of statutory reserves and non-forfeiture benefits.
- Verification of the accuracy and appropriateness of actuarial illustrations in new policy form filings.
- Assistance with preparation of analyses of the financial impact of proposed insurance legislation.

Retirement Benefits Analyst, Louisiana State Employees Retirement System, Baton Rouge, LA *06/04-06/06*

Calculated retirement benefits for multiple classes of employees in Louisiana's second largest retirement system.

Duties included:

- Primary analyst for the benefits of state university employees, the most complicated member class in the system.
- Creation and maintenance of automated letters and worksheets to assist other RBAs in their work.
- Regularly providing customer service to our members by fielding phone calls as well as occasionally taking walk-in appointments.
- Other special technical projects as needed, due to knowledge of the system's mainframe and MS Query.

Office Supervisor, Borders Books & Music, Springfield, PA *08/02-05/03*

- Store's primary currency handler and front of store supervisor.
- Prepared daily cash deposits of up to \$20,000.
- Provided daily customer service.

Systems Technician, Virginia Tech Residential and Dining Program, Blacksburg, VA *Summers 98-02*

Performed various technical projects as needed. Examples include:

- Implementing rollouts for Mac and Windows NT systems.
- Building and upgrading computer systems.
- Network administration on a 300-user network.
- Implementing a web-based care package ordering system.

Math Tutor, Queens University Learning Center, Charlotte, NC *08/98-05/01*

Tutored college students in mathematical topics from Algebra II through Real Variable Analysis.
